There will be NO start list as the starts will be managed by the individual riders – Self seeding

**START/FINISH
PROCEDURES**

Prior to the first time heading up the mountain, for the race runs, on the shuttle. All rider must "CLEAR AND CHECK" their own transponders chip at the Event Center (EC). If this is not completed then your times will not count and you should then just enjoy the ride as a social event.

When you get to the start area it is very important that you remain at least 3m away from the start beacon (Smaller BLUE box). If your chip beeps at you, you'd better start riding fast as your chip timing has commenced.

All starts will be a rolling start. Timing will start as soon as you get within 1.8m of the start station **(Little BLUE box)**. Riders are to give at least a 1 minute interval between racers. Please respect this time and don't ride over each other..... Remember NOT for sheep stations!

Racer / bike must be within the marked start box/ramp to start.

To finish a ride must ride within 3m of beacon **(Larger RED box)**. It is recommend that the passing speed is no faster than 40km/hr. Your transponder chips will beep to acknowledge that your timing information has been recorded.

When you are ready proceed to the timing tent for your timing entry and update.

Note: Last racers to leave the Stage 1 or Stage 2 will be 17:00 (5th) and 10:00 (6th).

Start Beacon (Range 1.8m)

Finish Beacon (Range 3m @ 40km/hr)
